

TASIS 2021-2022 STANDARDIZED TESTING RECOMMENDATIONS AND TESTING SCHEDULE

Suggested Testing schedule for 9th to 12th Grade

Due to ongoing uncertainty caused by the Covid-19 pandemic, the test dates listed below are subject to change. These dates will be offered only if Swiss regulations and TASIS policies allow.

It is the recommendation of the TASIS College Counseling Office that every college/university-bound student take a [free SAT practice test](#) and a [free ACT practice test](#) to determine which test they prefer, and then focus on preparing for either the ACT or the SAT exam (not both). These tests may be used at many universities world-wide in the admission process. **All US colleges and universities that require applicants to submit a standardized test score with the application will consider the ACT or the SAT equally.** Students who have taken the tests will decide, with the help of their college counselor, if it is to their advantage to submit the score report of the ACT and/or the SAT. Students are responsible for researching the standardized test requirements for the colleges/universities to which they plan to apply. ***Due to the Covid-19 pandemic, many colleges/universities have modified testing requirements. It is essential that students confirm the requirements (or lack thereof) for each school.***

Additionally, international students (non-US passport holders) applying to US colleges may be required to submit TOEFL (Test of English as a Foreign Language), IELTS (International English Language Testing Systems), or Duolingo scores if English is not the primary language. Students from non-EEA countries planning to study in the United Kingdom will need to submit a qualifying IELTS score to receive a student visa.

The following provides a suggested plan in order to take advantage of all the standardized testing options available at TASIS to complete the college application process.

Students should always include the writing section when registering. The test is scored on a 1-36 scale. The ACT is curriculum-based and is neither an aptitude nor an IQ test. Instead, the questions on the ACT are directly related to what students have learned in their high school courses in English, mathematics, and science.

Beginning in the fall of 2018 the ACT is offered internationally as a computer-based test only (with the exceptions of tests taken with accommodations).

More information about the ACT may be found at www.act.org. **Students are responsible for registering for the exam through the same website approximately four weeks before the test date.** A credit card is required to register.

Classes total 24 hours, typically spread over two weekends. The teacher is available during the intervening week to meet individually with students for tutoring sessions. It is recommended to take the course first in the Spring of the 11th Grade then again in the Fall of the 12th Grade.

Once a student has paid for the course, he or she may repeat the course once without additional charge.

Please note that enrollment in the preparatory class does not enroll your child for the SAT exam.

Registration is first-come, first-served. A waiting list will be kept once the course is full. Please speak about this with your child. It is a large time commitment, but one that many have found worth making.

Enrollment and Cancellation Policies

For program details and to register please visit asi-sat.com or email zmustafa@asi-sat.com. If you have questions you may also contact the TISIS Test Coordinator.

Cancellations need to be submitted to the Testing Coordinator prior to the beginning of the first class in writing. Registered students who do not attend the course will be billed accordingly.

The [Duolingo English Test](#) is quickly being recognized by [many universities](#) (1000+) to meet the testing requirements to prove English proficiency. It is an online exam that can be taken anytime on a personal computer with video capability.

TOEFL

TOEFL test dates are subject to change and will be announced at the beginning of the school year. Please make sure you do not sign up for a TOEFL test on the same day of an SAT or ACT test you might be taking, as both tests are given at the same time.

Anticipated Fall Dates:

Saturday, October 23

Saturday, November 20

TASIS is now an open testing site for the TOEFL. Seats are reserved for TASIS students only until 10 days before each test. 11th and 12th grade students will receive special registration instructions and a registration code by email (from testcoordinator@tasis.ch) for using the “Group Reservation” feature. It is recommended that students register as soon as possible after receiving these instructions as there are only 12 seats available for each Internet-based TOEFL test administration. Students can register for the exam by visiting the website: www.toefl.org.

PLEASE NOTE: Currently TOEFL results are not accepted by UK Immigration authorities for the purpose of obtaining a study visa. Non-EU students interested in studying in the UK may be told by universities that they will need to take the IELTS after submitting applications. More information regarding options for TASIS students to take the IELTS will be given in the fall.
